PRICE REVIEW NOTIFICATION

To our valued customers,

The Team at Synergy Packaging would like to thank you for your continued business.

Over the past year, especially over the past several weeks and months, there has been a significant increase across many of our supply and conversion channels, of which one of the largest increases is raw materials.

There have also been other price drivers, such as electricity and other input services, which have experienced significant increases. While Synergy Packaging has worked very hard to absorb and mitigate these cost increases, we have now reached a point where we need to pass on a fraction of these cost increases to remain viable.

Therefore, as part of our scheduled annual review of expenditures, we are writing to inform of the need to increase our product prices effective as of the 1st June 2018.

The price increase will apply to all locally manufactured and imported products. The increase percentage will be assessed on an individual basis.

Please do not hesitate to contact our friendly Sales Team on 03 9338 2626 should you require further information or clarification.

Once again, we thank you for your continued support, and thank you for your understanding that this price increase means we can continue to maintain a superior standard of products and services throughout the coming year.

Yours sincerely,

Meng Chong

Director
